

QMC IS PROUD TO RECOGNIZE FEBRUARY'S EMPLOYEE OF THE MONTH

**John Getchell, Lead MRI Tech, is congratulated by QMC
President & CEO Gary Gibbons, MD.**

February's Employee of the Month, is known in the Radiology Department as much for his patience, compassion and kindness as he is for his expertise in his field. He played a key role in developing the MRI service at QMC, and he "wowed" the surveyors during last month's Joint Commission survey with his safe practice and attention to detail in this high risk area. Beyond this, his co-workers report that he treats all patients like family, bestowing them with a sense of dignity and respect and easing their pain and anxiety with his gentle but firm manner. As one recent patient put it, "He is a treasure."

**Congratulations to
John Getchell, QMC's Employee of the Month!**
